

Classic™ STREET

Deter, Detect, Displace

Classic Street

The **CLASSIC STREET** combines excellent detection with attractive design for in-store security. Part of Checkpoint Systems' **CLASSIC** range, the **STREET** is ideal for retailers who are looking for simple but effective deterrent and detection in their stores.

With a small footprint, the **STREET** fits relatively unobtrusively into most store environments. It also offers the added benefit of design flexibility, Perspex advertising panels come as standard, which can be used to complement store aesthetics and display promotional and seasonal messages. Base covers are available to order in a range of RAL colours to help the **STREET** blend in well with your overall store design and branding*.

The **CLASSIC STREET** offers attractive simplicity without compromising on detection levels.
