

# Classic™ STYLE

Deter, Detect, Displace

# Classic Style

The **CLASSIC STYLE** combines excellent detection with attractive design for in-store security. Part of Checkpoint Systems' CLASSIC range, the STYLE is ideal for retailers who are looking for simple but effective deterrent and detection in their stores.

The **CLASSIC STYLE** antenna can fit perfectly into any environment, without impacting the customer shopping experience. The Plexiglas design and Integrated Dual Color LED's – which can be set to permanent on or when the antenna is alarmed – is perfect for those retailers who want top design without sacrificing performance. Base covers are available to order in a range of RAL colours to help the STYLE blend in well with your overall store design and branding\*

The **CLASSIC STYLE** offers attractive simplicity without the compromise on detection levels.
