

Evolve™

G10

Deter, Detect, Displace

# Evolve G10

The G10 is part of Checkpoint Systems' EVOLVE range which allows for connection to remote reporting and service.

Checkpoint's G10 has been designed with high-end retailers in mind, such as apparel, accessory boutiques, perfumery and health and beauty stores or where aesthetics are paramount, but space is at a premium.

Offering the ability to integrate visitor counting and with dual color LED's, the G10 offers best-in-class, high performance and reliability, in a sleek and attractive design.

### Individual set up options

allows for display of tagged merchandise closer to antennas

### Remote maintenance

and reporting software options available on demand

### Jammer detection

alerts stores to the use of EAS Jammers

### Sleek plexiglas design

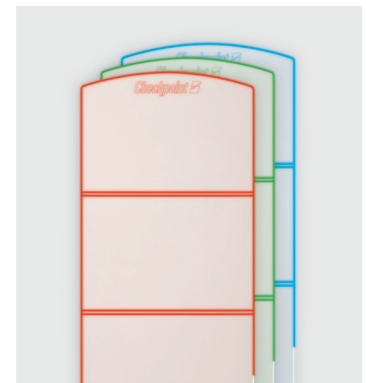

attractive design without sacrificing performance

### Integrated leds

in a choice of red, blue or green
